OF INTEREST TO TEACHERS

(Income Tax Deductions)

The courts have ruled that when summer session attendance is required of a teacher as a condition of reemployment, the cost of such attendance is deductible as a "necessary business expense" in reporting income for Federal income tax purposes.

It is suggested that teachers who feel that they have a legitimate basis for a summer session expense deduction consult a representative of the U. S. Bureau of Internal Revenue concerning the matter.

ADVANTAGES OF SUMMER STUDY

YEAR-ROUND STUDY OPPORTUNITIES

The 1961 Summer Session, representing for Ohio University the seventy-first consecutive year of summer time study, will consist of two five-week terms. In conjunction with the two regular semesters, this provides the opportunity for year-round study and research. The graduate assistant has the added opportunity of study with waiver of the general registration fee during the summer sessions immediately preceding and following the period of his appointment.

Formal graduation exercises on Saturday, August 26 for all summer graduates will mark the close of the summer session. Special arrangements are being planned to accommodate those who completed requirements at the close of the first term who return for the exercises and other special events.

The work of the Summer Session is an integral part of the academic year, with every college represented in the summer offerings. All courses

are given by members of the regular teaching staff or visiting lecturers of outstanding ability, and are equivalent to those offered in the regular year in method, content, and credit.

The courses offered in the summer range from the freshman to the doctoral level, and have been chosen from the broader offerings of the regular year to meet the needs of the following:

1. Teachers and school administrators who wish to complete degree requirements or take specific courses to improve their professional standing and keep abreast of developments in the field of education. Offerings which contribute to advancement in certification by the State Department of Education will be available.

2. High school graduates who desire to begin their college careers at once. By entering in the summer and attending each summer, a student may be able to complete the usual four-year college program in three years. Some will find attendance valuable for removing deficiencies in high school mathematics and completing work in English.

Students graduating in the lowest third of their high school class who plan to attend the summer session should attend the precollege counseling session on Saturday, June 17, at 2:00 p.m. Students classified as on *special warning* because of low test scores in addition to the low standing in high school are urged to begin their work in the summer session since the beginning program for these students will not be available in the fall semester. Should a special warning student fail to attend the summer session, his next opportunity to begin his program will be in February, 1962.

The precollege program for students eligible to enter in September, 1961 is scheduled for July 24 to August 11.

3. Veterans and war orphans who wish to take advantage of Federal aid to carry college work.

4. Entering students, or students enrolled during the regular year, who wish to accelerate their progress toward degrees.

5. Graduate students who find it necessary or desirable to utilize summer periods for study. Such students may complete one third of the degree requirements in the ten-week session. Of particular interest to masters' candidates is the fact that all requirements for the degree may be fulfilled during summer terms.

6. Persons not working for degrees but who want to enroll for specific courses and types of training in the elective studies program.

WORKSHOPS, CONFERENCES, AND SPECIAL EVENTS

During the summer of 1961, Ohio University will offer a number of workshops, conferences, and other special events. Some will be for high school pupils. These special events will range from one day to six weeks in duration. They will give participants an opportunity to work intensively at one project or in one area of interest. Most of the workshops designed for student participation will carry the possibility of university credit, but students should ascertain whether the credit earned in the particular workshop in which they enroll is applicable to the program they are carrying. A graduate student needs to be sure that the credit will be approved by his adviser and the dean of the Graduate College.

Most workshops, whether or not they offer the possibility of credit, will have a *basic inclusive fee* that will be assessed each participant. The *registration for credit fee* will be the regular summer term fee and be in addition to the *basic inclusive fee*. See FEES.

Students desiring undergraduate credit or registering as auditors in workshops will register on a simplified set of registration cards without the formality of obtaining an adviser's signature.

A student not previously registered at Ohio University will be admitted to a workshop by the Registrar as "Special Student, No Credits on File."

Students desiring graduate credit must be admitted to the Graduate College *prior to registration*.

The registration fee is \$30, unless the registration is part of a regular summer load for which the regular fee has been paid. No credit will be allowed to high school students. To obtain graduate credit for the Music Clinic-Workshop a person must be admitted to the Graduate College prior to the opening of the clinic.

Address inquiries to Dr. Gilbert A. Stephenson, School of Music, Ohio University, Athens, Ohio.

The program is designed to advance the student in depth in the fields of chemistry and physics, and to introduce him to the field of research by having him take an active part in a research project being conducted by a University professor.

If a grant is received for the operation of this training program, a part of the costs will be paid for participants who are awarded scholarships to attend.

For further information write to Professor James T. Shipman, Physics Department, Ohio University, Athens, Ohio.

OHIO HIGH SCHOOL STUDENT COUNCIL WORKSHOPS

July 9—14; July 16—21

The fifth annual High School Student Council Workshops will be conducted under the joint sponsorship of Ohio University and the Ohio Association of Student Councils. Attendance during either week is open to delegates and sponsors from high schools who are members of the Ohio Association of Student Councils.

Detailed information about the undergraduate colleges is available in the General Catalog. Information about graduate study is available in the Graduate College Bulletin. Brief descriptions of the University College and the Graduate College are included here.

THE UNIVERSITY COLLEGE

The University College is especially concerned with helping the freshman make the transition from high school to college, and with making his freshman year a good educational foundation for later college work. Since all freshmen enroll in the University College, it is concerned primarily with the problems of first year students. Help is provided for selecting a schedule of classes, developing efficient methods of study, planning an educational program, and choosing a field of specialization.

Each student meets with his assigned faculty counselor. This counselor will help in preparing a schedule of classes, and each student is expected to confer with him at various times during the summer session. These conferences are arranged by the student for helping with such problems as he may wish to discuss.

The educational program of the University College is organized to meet the needs of the individual students. Required courses are determined on the basis of the high school record and the educational objective of that student. The work of the freshman year is planned to provide a basic general education and a preparation for later specialization. Specific courses which are important for professional training are available.

The University College also offers the associate in arts degree for the completion of two years of college work. This program includes certain general education courses and a selection of career courses. This meets the needs of those students who may not wish to devote four years to their college work. Attending college during summer session will shorten the time for completing the requirements for a four-year degree or the two-year associate degree.

The starting program for *special warning* students is offered in the summer terms. Those students who graduate in the lowest one-third of their high school class and who also stand in the lowest one-fifth on the freshman tests are placed on special warning. Since the starting program for the special warning students will not be available in the fall semesters, these students must start their work either in the summer session or in a spring semester.

Students who are deficient in English and mathematics are advised to complete these studies during the summer and before assuming the full load

of a regular semester's work.

All new students will report Saturday, June 17, for testing and counseling. A student who graduates in the lower one-third of his high school class should have his entering status determined by taking the ACT examination or by coming to the campus to complete his freshman tests before June 16. Any student planning to attend summer session need not have an early evaluation of entering status. This will be done on Saturday, June 17. Students attending summer school will complete their pre-college counseling for the preparation of their fall schedule sometime during the period July 24 to August 11.

THE GRADUATE COLLEGE

The summer session affords many graduate students, particularly teachers and school administrators, an opportunity to engage in advanced study. An increasing number of graduate students consider it desirable to maintain the continuity of their programs of study, and have found the less crowded summer facilities of the laboratories and the library especially conducive to research. In many areas it is possible to complete the requirement for a master's degree in three full summer sessions of ten weeks each. The graduate offerings of the summer session are enhanced by special programs of study, conferences, clinics, workshops, and visiting lecturers.

The Graduate College confers the degrees of Master of Arts, Master of Education, Master of Science, Master of Fine Arts, and Master of Business Administration through the programs of instruction provided by the colleges of Arts and Sciences, Education, Commerce, Applied Science, Fine Arts, and the Division of Physical Education and Athletics. For those completing the requirements of the Master of Education degree an alternate plan is available which does not include a thesis. The degree of Doctor of Philosophy is granted in certain selected areas of study in the University. At present the doctoral program is limited to Chemistry, School Administration, Elementary Education, Guidance and Counseling, Physics, Public Address, and Speech and Hearing Therapy.

Scholarships are available to students of exceptionally strong scholastic qualifications. During the regular academic year assistantships with stipends of \$1800 to \$2000 and exemption from the general registration and laboratory fee portions of the comprehensive fee are granted to students in many areas of study. Research and teaching fellowships with stipends ranging from \$2200 to \$3000 are also granted in certain departments, the stipend being based upon responsibilities of the appointment and experience of the appointee.

Information concerning requirements for admission to the Graduate College, programs for degrees, course offerings, scholarships, and assistantships, may be obtained, upon request, from the Dean of the Graduate College, Ohio University, Athens, Ohio.

FACILITIES AND SERVICES

Summer students have full use of all university facilities and may avail themselves of all its services.

LABORATORY SCHOOLS

During the first five-week term of the Summer Session, the University will maintain school laboratory facilities at the University Elementary School. Ed. 274, Advanced Student Teaching Laboratory, will be offered for experienced teachers. Permission for admission must be secured from the Director of Student Teaching.

The summer program in the elementary school is devoted entirely to an enrichment program at all grade levels, kindergarten through sixth grade. This five weeks' program is not a continuation of the year's work and it is not a remedial session. A limited number of the children of students attending the University are welcome to attend the school during the summer term provided application is made in advance and there are available facilities. Children attend school in the morning only, and swimming and other activities are included in the summer curriculum. There is no tuition fee.

UNIVERSITY LIBRARY

The Edwin Watts Chubb Library houses the University's main collection of more than 300,000 volumes, including periodical sets, documents, and pamphlets. The collection is shelved chiefly in the stacks to which students have access. A reference collection of several thousand volumes is in the Reading Room and current issues of more than 1500 periodicals and newspapers are in an adjoining Periodical Room. The Library is equipped with both microfilm and microcard reading machines. Collections of specialized material are administered by the College of Commerce, College of Education, School of Music, Department of Chemistry, Department of Physics, Department of Zoology, and the Hudson Health Center.

HUDSON HEALTH CENTER

The Center includes a complete clinic with X-ray, clinical laboratory and minor surgery, a forty-bed hospital with an isolation wing, and a physiotherapy department. The staff includes four full-time doctors and eleven registered nurses. The summer session fee entitles a student to (1) outpatient clinic service, which usually includes medications; (2) hospitalization in the hospital without charge; (3) consultations with outside specialists at the discretion of the director; and (4) emergency service at all hours.

TESTING AND COUNSELING SERVICE

Complete vocational counseling is available to interested students. Students who feel they may be stimulated in their achievement by developing definite vocational and educational decisions in advance of preparing a fall schedule of classes should consider completing vocational counseling the summer before attending a pre-college counseling conference. Educational and vocational plans are developed on the basis of a survey of the abilities, interests, aptitudes, and achievements and also on the basis of the requirements for the occupations and their training programs. A fee of \$5.00 is charged students and prospective students to cover the costs of tests and scoring. Application for this service may be made by contacting the staff of the Testing and Counseling Service in Room 235, Porter Hall.

BUREAU OF APPOINTMENTS

Through the Bureau of Appointments, located in Cutler Hall, students, former students, and graduates of the University may obtain assistance in securing positions in teaching, business, and industry. A registration charge of \$2 provides this service while an applicant is enrolled as a student in the University and during his first year out of school. After the one year period, a charge of \$2 a year is made for each year in which assistance is requested.

The Bureau maintains and promotes all possible connections with prospective employers for the benefit of persons seeking initial placement and for those looking toward advancement to better positions.

LIVING ARRANGEMENTS

All undergraduate students (except those 25 years of age and over) carrying four hours or more must board and room in University housing during the summer terms. This rule also applies to married undergraduate students under 25 whose husbands or wives do not reside with them in Athens. Exceptions are made for commuters and legal residents of Athens. Any other exceptions must be directed to the Director of Housing for consideration by the University Ways and Means Committee.

APPLICATIONS: The application for housing must be completed as directed and returned with the required advance room payment of either \$36.00 for a double room or \$56.00 for a single room to the Director of Housing, Ohio University, Athens, Ohio. Checks or money orders should be made payable to Ohio University. An application is considered only if accompanied by the required advance room payment. Since the number of single rooms available is limited, assignments are made in order of date of receipt of application with accompanying room deposit.

BOARD: Residents in all University housing accommodations are required to eat in University dining halls. In the 1961 summer session meals will be served in air-conditioned Jefferson Hall.

The cost of board for each five-week term is either \$65 (which includes 21 meals, Sunday through Saturday of each week) OR \$55 (which includes 15 meals, Monday through Friday of each week). Every applicant for dormitory residence must indicate in the space provided on the housing application-agreement form his preference for either of these plans.

Students living in private homes may arrange to eat in a University dining hall, but must continue with such arrangements until the end of the five-week term.

ROOMS: Room rates, per student, for each five-week term are \$56 for a single room and \$36 for a double room. These rates include a \$1 retaining fee per each five-week term which is not part of the room rent and is not refundable.

Rooms in all residence halls are furnished with dressers, study tables, chairs, and bed linens. The University provides for the laundering of bed linens. Items such as blankets, bed spreads, towels, toilet articles, and such accessories as draperies and desk lamps must be provided by the student.

PAYMENTS: The room payment of either \$36 for a double room or \$56 for a single room must accompany the housing application.

The full board charge of either \$65 (which includes 21 meals, Sunday through Saturday of each week) OR \$55 (which includes 15 meals, Monday through Friday of each week) is due and payable at the beginning of the term for which application is made. Preference for either plan must be indicated in the space provided on the housing application-agreement form.

CANCELLATIONS AND REFUNDS: Full refund of the advance room payment will be made to a student requesting cancellation by the Saturday preceding the opening of the term for which application is made. After that, refunds will be on the basis of 75 per cent of the advance room payment (less charges for period of occupancy) if application is made before the end of the first week. A week is interpreted to mean a calendar week ending on Saturday.

A student cancelling before, or withdrawing during, the term will be refunded the unused portion of the board payment.

PRIVATE HOMES: Rooms in private homes are listed in the Office of the Director of Housing and a list of these is available upon request.

HOUSING FOR MARRIED STUDENTS

APARTMENTS: The University has 112 apartment units located on East State Street approximately two miles from The Green. Each of these apartments has a living room, bedroom, kitchen, and bathroom, and an abundance of closet space. Each apartment is provided with a gas cooking range and a gas heating unit. Tenants must arrange to supply the additional needed articles. The rent for each apartment is \$42 a month, payable in advance. The rental charge includes all utilities and garbage disposal.

In addition, there are seventeen two-room prefabricated units which accommodate a like number of families. The facilities are equipped with gas cooking range, oil heating unit, kitchen table and chairs, and dresser. The tenant must provide his own studio couch or bed and refrigerator. The rent for each unit is \$30 a month, payable in advance. The rental charge includes gas and water. Each family unit is quite livable.

Veterans are given preference in the assignment of these facilities.

TRAILER PARK: Space is available for privately-owned house trailers at \$14 a month. The charge covers water, sewerage, bath and laundry facilities, and ground rental. The charge does not cover electricity.

Convenient bus service is maintained by the University, on an hourly schedule when classes are in session, at no cost to the occupants of the facilities of the East State Street residential area.

It is anticipated that vacancies will exist in these accommodations. A limited number of the apartments are usually available through sub-leasing to married students during the summer session.

For information concerning quarters for married students, write to the Director of Housing, Ohio University, Athens, Ohio. A request form is provided on the last page of this bulletin.

CULTURAL-RECREATIONAL ACTIVITIES AND FACILITIES

SOCIAL POLICY

The students, faculty, and administrative officers of the Ohio University and the community of Athens are united in their interest in maintaining a moral tone and a social pattern that is in keeping with good taste and acceptable social practice anywhere among educated people.

As part of the summer entertainment program, feature motion picture productions are shown free in Memorial Auditorium weekly.

Not many miles distant from Athens, and suitable as weekend diversions, are the attractions of four of the state's most scenic areas—Dow

Lake, a new lake just east of Athens, within a 2000 acre state park area, which is used by the University for educational and research projects; Lake Hope, in the heart of the Zaleski State Forest; the caves and gorges of the Hocking Park Area; and Burr Oak Lake, near Glouster.

ADMISSION AND REGISTRATION

ADMISSION

All correspondence pertaining to the admission of a student to the University should be addressed to the Director of Admissions and University Examiner, Ohio University, Athens, Ohio.

Students are accepted for admission to the University at the beginning of each of the five-week summer terms on the same basis as at the beginning of each of the semesters of the regular year.

Application for admission consists of the presentation of an application blank filled in by the applicant (to obtain application blank, use the form on the last page of this bulletin), official transcripts of all high school or college credit, two small photographs of the applicant, a vaccination and immunization blank certified by a physician, and a medical history blank filled in by the applicant and completed by a physician.

A student who has attended another college or university and who plans to come to Ohio University for the summer session *only*, is not required to provide transcripts of previous college credit, but he must furnish a statement from the school last attended that he is a student in good academic standing.

A student attending for the summer session *only* is not required to provide the medical report and vaccination and immunization certificate *unless he wishes his credits to apply on an Ohio University degree program*.

Application for admission to the University does not constitute an application for University housing. For information concerning application for living quarters, see "Living Arrangements."

APPLICANTS FROM OHIO. All residents of Ohio who are graduates of approved high schools are eligible for admission to Ohio University. An applicant, however, who ranks in the lowest third of his graduating class may be placed on *special warning*. This placement for the low-in-class graduate will be determined on the basis of freshman test scores, pattern of high school subjects, and high school recommendations. The tests must be taken at an announced time prior to the opening of the summer session.

Ohio University recognizes the General Educational Development Tests (High School Level) and will admit a veteran on the basis of satisfactory scores achieved on these tests. However, the applicant may be accepted only for the two-year program if his test scores are low.

Any applicant, a resident of Ohio, who has attended another university or college and who desires to transfer to Ohio University is considered for admission if he has a point-hour ratio of 2.25 on the basis of all hours attempted, and if he is eligible for good standing at Ohio University.

APPLICANTS FROM OUT OF THE STATE. An application from an out-of-state student is considered if the applicant ranks in the highest third of his graduating class in an approved high school. In addition, the student will be evaluated on the basis of the pattern of high school subjects, especially the subjects which prepare him for his college work. Test scores and interview information may be required.

A veteran who ranks above the 50th centile on the General Educational Development Tests (High School Level) may be considered for admission.

A transfer student from out of the state who makes application for admission to any college of the University is considered for admission if he has a point-hour ratio of 2.5 on the Ohio University grade-point system on all hours attempted in all of his previous college work, and if he is eligible for good standing at Ohio University.

SPECIAL STUDENTS (*Non-Degree*). A mature person (whether or not a high school graduate, and ordinarily 21 years of age or over) not planning to work toward a degree, may be accepted as a *Special Non-Degree Student*. Such a person must file an application for admission to the University and clear through the Admissions Office. He is permitted to carry a full class load and may take any courses for which he is qualified.

Admission for the Summer Session only as a special student does not constitute admission to the regular academic year.

G. I. BILL TRAINEES

Veterans and orphans of veterans entering Ohio University for the first time and expecting Government aid should report to the Veterans Office, Room 9A, Ewing Hall. Following enrollment, the portion of the registration card marked *Coordinator* must be presented to the Coordinator of Veterans Affairs before enrollment under the *G.I. Bill* is complete.

Public Law 550 veterans (Korean G.I. Bill) should bring with them a copy of their Certificate for Education and Training (Form 7-1993) issued by the Veterans Administration. Public Law 894 (Disabled Korean G.I. Bill) veterans must be approved by the Training Officer who makes periodic visits to the campus. Public Law 634 students (orphans) should also report to the Veterans Office as soon as possible after arrival on campus.

Veterans who carry non-credit toward degree courses as part of their load may expect to receive only partial benefits.

REGISTRATION

Details concerning the registration procedure are given in the Schedule of Classes which may be obtained from the Registrar. A fee of three dollars is charged for late registration, with the addition of one dollar for each day late. Students who register late pay registration fees on the day they register, and are subject to the late registration fee.

A permit to register must be obtained from the Registrar *several weeks prior to registration*. A new student receives his permit to register by mail with other admission material.

The days for advising and registration are indicated in the calendar. The hour and place for advising and registration will be indicated on the permit to register.

ACADEMIC LOAD. The normal academic load for a five-week term is six semester hours.

CREDIT. All credit is designated in semester hours. The credit hours applicable to any given course taken in a five-week summer term are the same as for a full semester.

AUDITING PRIVILEGE. At the time he is advised a student may receive permission to audit courses as part of his load. The courses must be marked "Audit" on the schedule and registration cards. The fee for auditing is the same as for credit.

FINANCIAL AIDS

Students may be assisted in furthering their education during the summer sessions by applying for three types of financial aid: scholarships, loans, and part-time employment.

Students who are eligible for a scholarship or loan for the fall semester may receive aid of this type during the summer and then continue on during the regular academic year.

Students desiring information concerning any of these types of aid should direct their inquiries to the Director of Student Financial Aids, Ohio University, Athens, Ohio.

GRADUATION REQUIREMENTS

UNIVERSITY CATALOG. For complete details concerning university regulations and requirements, see the General Catalog of the University.

PROFICIENCY IN ENGLISH. As a condition of graduation from Ohio University, every student must demonstrate his ability to write clear and correct English. Students who fail to make a grade of A or B in English 4 or in English 293 take the Proficiency Test. Those who fail the Test report to the Writing Clinic.

SCHEDULE FOR WRITING CLINICS AND PROFICIENCY TESTS

FIRST TERM: Writing Clinic; June 21, 22, 26, 27, 28, 29; July 3, 5; Proficiency Test: July 6.

SECOND TERM: Proficiency Test: August 2.

PHYSICAL EDUCATION. Men students have a flexible requirement. The normal requirement of two semester hours credit in service courses may be reduced by passing physical proficiency and sports tests which are offered at pre-registration periods and near the close of each summer term.

Women students are required to complete two semester hours credit in service courses.

Exemption from the physical education requirement is made automatically by the Registrar for a graduate student, for a student who is 30 years of age or over, or for a veteran who is 25 years of age or over, provided he has completed the requirement up to and including the semester in which he attained the required age.

RESIDENCE. In general the minimum residence requirement for a baccalaureate degree is two semesters or the equivalent in summer sessions which should total not fewer than 25 weeks with the completion of a minimum of 30 semester hours. If only the minimum requirement is met, the 25 weeks must constitute final residence.

FINAL EXAMINATIONS. All students are required to take final examinations in order to receive credit. Final examinations are held during the last week of each term.

APPLICATION FOR GRADUATION. A candidate for graduation must make application for graduation in the Registrar's Office not later than the dates given in the University Calendar. The application fee for a baccalaureate degree is \$15; for the Associate in Arts degree, \$7.50. Application for graduation made after the time designated adds \$5.

TIME LIMIT. The time limit for fulfilling the published requirements for a degree is five years from the date of first registration in the University. Requirements instituted subsequent to the student's initial registration are applicable at the discretion of the University.

The following additional regulations apply:

1. A student who is advanced to a degree college at the end of his first year, and who does not change his major or equivalent, fulfills the requirements in effect at the time he first registered in the University.

2. A student who is retained in the University College for more than one year fulfills the requirements in effect at the time he enters the degree college. If he changes his major or equivalent he fulfills the requirements in effect at the time he makes the change.

A transfer student is governed by the same regulations, except that the number of years in which to complete the degree requirements is reduced by the number of years of transferred work.

MINIMUM STANDARD FOR GRADUATION. To meet the minimum standard for graduation from Ohio University, a student must have a point-hour ratio of 2.0 (C) on all hours attempted, but including only the final hours and points in repeated courses. This applies to his total record, and to his major or equivalent as determined by his college. For a student with transferred credit, this rule applies to both his cumulative record, which includes transferred credits, and to his Ohio University record exclusive of transferred credits.

A student who fails to graduate because of a grade point deficiency may take, with approval of his dean, up to a maximum of 6 semester hours of work in correspondence, extension, or branches of Ohio University to make up his deficiency. Work may not be taken at another college to make up this deficiency.

SUMMER SESSION COMMENCEMENT. Degrees and diplomas are awarded at formal graduation exercises at the end of the second five-week term. Attendance at graduation exercises is required of candidates in attendance the second term, unless excused.

COURSES OF INSTRUCTION

Classes in the summer Session are held five days a week, Monday to Friday, inclusive. Class periods are 90 minutes in length, with ten-minute intervals between. The schedule begins at 7:00 and continues with classes at 8:40, 10:20, 12:00, 1:40, and 3:20.

Normally, a class carrying three semester hours of credit meets daily, Monday through Friday, for 90 minutes; a class carrying two hours of credit meets daily, Monday through Friday, for 60 minutes; and a class carrying one hour of credit, on Tuesday and Thursday, for 90 minutes.

In the list of offerings a typical title line contains the following information: (1) course number, (2) course title, (3) semester hours of credit, (4) hour(s) and days of the week on which the class meets (see note below, and (5) the instructor. "Arranged" means that the time of meeting is arranged in a conference between instructor and student.

In a course carrying variable credit the credit may be expressed thus, (1 to 4), indicating that one hour is the minimum and four hours the maximum amount of credit allowed for the course in one summer term.

The catalog number indicates the student classification for which the course is designed. The numbers are grouped as follows: 1 to 99, for freshmen; 100 to 199, for undergraduates above freshman level; 200 to 299, for advanced undergraduates; 300 to 399, for advanced undergraduates and graduate college students; and 400 to 499 for graduate college students.

A Schedule of Classes giving, in addition to the information below, the meeting places of classes may be obtained from the Registrar.

NOTE

Unless otherwise indicated, courses meet each day, Monday through Friday, at the hours shown.

Some 4 and 5 hour courses will continue for both summer terms (10 weeks). This is indicated following the course title.
